MODULAR METAL ROOFING TILES

NEW

26 GAUGE, G90

Supre, Ulta and Como^{NEW} are made from ArcelorMittal steel – the largest steel producers in the world

Steel is durable

Steel roofing products have nearly twice the lifespan of conventional roofing products

Steel is eco-friendly

Steel can be recycled endlessly, which makes it one of the most environmentally friendly materials

Steel protects

Our steel roofing products have achieved the highest hurricane wind protection, hail impact and fire safety ratings in the US

Extreme weather and impact protection

Against hailstorm, rain, snow, heat and wind

Our products have achieved Class 4 ratings according to the UL 2218 Roof Impact Classifications

Fire protection

We got an "A" in fire protection according to the UL 790 (ASTM E 108) Fire Protection Ratings

High wind protection

We achieved the Class 90 certification for the UL 580 Wind Uplift Resistance test. We have tested our products at wind speeds over 200 mph

The quality of our roofs has been recognized and certified by the Underwriters Laboratories. UL is the largest independent testing laboratory in the world. It is dedicated to promoting safe living and working environments.

WORTHHOUSE ROOFS PROTECTS YOUR HOME

Class 90

High wind protection

We achieved the Class 90 certification for the UL 580 Wind Uplift Resistance test. We have tested our products at wind speeds over 200 mph.

Class 4

Extreme weather and impact protection

Against hailstorm, rain, snow, heat and wind. Our products have achieved Class 4 ratings according to the UL 2218 Roof Impact Classifications.

Class A

Fire protection

We got an "A" in fire protection according to the UL 790 (ASTM E 108) Fire Protection Ratings.

PROTECTIVE SHIELD

Noble Matt

Covered with the Noble Matt coating, it effectively protects against long-term wear and provides maximum corrosion resistance in any conceivable application.

Stable and constant

The Noble Matt coating not only protects against discoloration, but also functions as an all weather shield.

It says no to re-roofing

Forget about re-roofing. Supre, Ulta and Como will serve you reliably for generations. The steel and protective shield form a really powerful duo of protection.

PROTECTIVE SHIELD

Magnelis® **NEW**

Magnelis® is a unique metallic coating that represents a breakthrough in corrosion protection. It is the best material with numerous uses.

Magnelis® coating was undergone the most severe corrosion performance tests in Daytona Beach laboratories. The results were incomparable with any other coating on the market!!!

Corrosion performance – outdoor exposure.
Complementary data in very severe environment
First data after 1 year exposure.

The Magnelis® corrosion performance is a minimum of 3 times better than Galvanized Steel in all environmental classes!

WORTHOUSE IS DELIGHTED TO PRESENT TO YOU OUR ROOF OFFERING OF MAGNELIS COATING WITH AN AMAZING WARRANTY

- **25 Year Warranty for C3/C4 environment**
- **20 Year Coastal Warranty for C5 environment**

**MODULAR ROOFS

Take to the sky with Raven Black

Ravens are very intelligent birds, which played an integral role in the mythology of the indigenous peoples of the Pacific Northwest, as well as art and literature. For many cultures the bird was a religious symbol. Some even believed that it was God. Raven Black. The color of freedom

Raven Black

Pacific Gray

Dive deep into the Pacific Gray

The Pacific is the largest and deepest ocean on Earth. It covers almost 1/3 of the earth's surface. Its depth reaches more than 35 thousand feet. Pacific Gray. The color of mystic nature

Dare to conquer with Sierra Brown

The Sierra Nevada is a mountain range in the Western United States. Its highest peak – Mount Whitney – reaches an elevation of 14.505 feet. The foothills of this mountain range are home to the California Gold Rush of the 19th century. Sierra Brown. The color of a true conqueror

Sierra Brown

Canyon Red

Experience Canyon Red – one of nature's true wonders

The Grand Canyon is the largest river gorge in the world, located in Arizona. It is 277 miles long, about 6.000 feet deep and the home of whitewater rafting. Canyon Red. The color of adventure

Excellent tightness

Flamingo elements are moulded in specially designed, patented moulds. Forget about the leaks when assembled

Only the best materials

Flamingo was manufactured from GreenCoat RWS (Rain Water System) steel produced by SSAB – a Swedish global steel company. GreenCoat RWS was developed specifically to create high quality gutter systems

It has a double sided coating and is exceptionally durable. Coatings used in GreenCoat RWS products include polymer grains, which improve the surface scratch resistance

Evenness for years

Flamingo has a 30-year warranty for the C1-C4 environmental class (industrial and coastal areas with a high aggressiveness of the corrosive environment)

Safe transport and storage

Flamingo elements are factory-protected with foil. We transport it in specially designed packaging and care about the highest standard of storage

In business for more than 30 years

One of the largest companies of its kind in Europe. Privately owned with six automated mass production manufacturing facilities. 1300 employees. Successfully covering 35% of overall rooftops in Europe.

Worthouse products are in 41 countries around the world. Ongoing process for first manufacturing facility in United States. Northern America headquarters is located in Waynesboro GA.

Find out more at worthouse.com

Reaching above&beyond for you – approved for sales nationwide

- Miami Dade approval (Approval No. NoA 17/0221.05)
- Florida Product Approval FL21544/R1
- UL Classified evaluation UL ER39048/01, UL 1897, UL580
- TDI approval RC-563
- Constant evaluation of our system elements to ensure highest quality solution.

Worthouse Products are Full Roof System with Lifetime Warranty (30 years Coastal Warranty).

Engineered for difficult weather and environment conditions.

A roof that will last as long as its foundation

- Worthouse Modular Metal tile “warrantied duration” is achieved thanks to our source, multinational steel supplier ArcelorMittal providing the strongest raw material available.

For what matters most to you

- With the strongest warranty on the market, Worthouse is ensuring long term protection for your investments.
- Discounted insurance rates up to 25%.

The purchase of a lifetime

- Because your house is worth it.
- With up to a lifetime warrantied life cycle, divided by average costs for materials & installation Worthouse metal roofing achieves very low cost per square per year over its lifetime. Making it one of the most affordable roofing products on the market.

Eco friendly

- Products create less waste the market average of 10+%.
- Worthouse tiles can be 100% recyclable.
- Allows installation of solar panels.
- Little to no maintenance.

The beauty of seduction

- Worthouse products transform a everyday house to a home you love to see.
- With an elegant and innovative appealing design these products will improve greatly your house appearance.

Worthouse.®

Metal Roofing Manufacturing

Extreme weather protection against hailstorm, rain, snow, heat and wind

One pallet – one job

Lightweight and easy to handle

Pre-drilled holes enable self-calibration of roof

Easy and space efficient storage

Quick and efficient installation

Roof angle and partially installed roof corrections

Batch-to-batch color consistency guarantee

Less than 5% material waste

Complete set of accessories

High wind resistance

Fire protection – class A degree
